

Lions Class Newsletter Term 2

Let's travel to

# BRAZIL

This term's topic is linked to Geography, where we will be finding out about Brazil: its location, climate and ecosystems. Along with urbanisation and its impact on people. DT will be linked to Geography, where the children will programme a navigation tool using BBC Micro:bit editor and a 3D virtual model of their design, using Tinkercad.

We will be studying an adventure text (Kensuke's Kingdom) in English, before delving into non-fiction and exploring how to write persuasive letters. In Science, we will be learning about Carl Linnaeus and how to classify living things. Like Linnaeus, we will be keen observers of nature, through art, where we will be studying flowers, using pastels.

Maths this term is focussed on fractions and measurement. We will be simplifying, comparing, ordering, adding, subtracting, dividing and multiplying fractions, as well as finding fractions of amounts.

PE days are: Monday's and Friday's where we will be focussing on basketball and fitness.
